AYER'S

CHERRY PECTORAL

For the Cure of

COLDS, COLDS, HOARSENESS,

BRONCHITIS, WHOOPING-COUGH,

CROUP, ASTHMA, AND

CONSUMPTION.

This invaluable remedy for all diseases of the Throat and Lungs, has attained a celebrity from its wonderful cures, never equalled by any other medicine. Other preparations have proved themselves good, and sometimes effected considerable cures, even to a full share of the confidence of everybody where it is known. After years of trial in every climate, the result has indisputably proved a mastery over this class of dangerous and fatal diseases, which could not fail to attract the attention of Physicians, Patients and the public generally.

Some statements, not of obscure individuals, and in distant places, but of men who are known and respected throughout the country.

From Col. CHARLES D. SIGEON, Oct. 1847.

VALENTINE Davis, Esq., of New York City, writes that it is a duty and a pleasure to certify the value and efficacy of Ayer's Cherry Pectoral, which I considered myself called to use, in the last stages of a severe Cough, Cold, and Hoarseness, which had resisted every other remedy. I was cured by it, and consider it a duty to publish the fact, that others may be benefited by it.

From the Rev. JOHN N. PERKINS, the venerable President of the Western Reserve College, one of the eminently Christian men of this country, and the County Physician, constantly used in this section, where it has given remarkable evidence of its power, effecting a variety of cases.

From the Rev. JNO. D. COGHRANE, a distinguished writer of the English Church, written to the Proprietors of Cherry Pectoral, to whom he has given a voluntary testimonial, by Charley Pectoral. His cordial spirit, may be found in our circular, to which the Agent, and its wonderful effects in consumptions.

From the well known Druggist at Brattleboro, Vt., one of the largest dealers in the Southern country, from his own observation.

Brattleboro, Vt., Mich. 10, 1849.

Dr. J. C. AYER—Immediately on receipt of your Cherry Pectoral I carried a bottle to an acquaintance of mine who thought to be near his end with quick consumption. The weather unable to rise from his bed. Your Pectoral finally, his friends believed it gave him speedy relief. I could be induced for him at once, I immediately left town for three weeks, and on my return, to my surprise on my way home from the cars, was entirely recovered. Four weeks from the time we heard of using your medicine he was able to endure the fatigue of blacksmithing.

Some other cases within my knowledge, where your Pectoral has been singular successful, but are marked as this.

Yours truly, G. W. UNDERWOOD.

Prepared and sold by J. C. AYER, Practical Chemist, Lowell, Mass.

For sale by the following places: Hamor, Jr. & INGRAHAM, Bangor; EMERSON, BALD. and G. W. HOLDEN, Bucksport; G. I. Rice & Co., Belfast; Wm. O. Poor, Ellsworth. It, and by the Druggists generally throughout the State. feb 21—d&w6w&w

The Wonder of the Age.

BEWARE OF IMPOSITION!

The Only Genuine and Original

IS THE

NORTH AMERICAN ELECTRIC

WASHING FLUID,

For washing in either Hard or Soft Water.

It is the only genuine article to be found in the world and possesses double the power of any ever discovered, for washing clothes at a little expense, doing away with washboards altogether, as it seems to be the long sought philosopher's stone, or universal solvent: seeming a wonder to all by its operation being of the most natural character. A common sized washing, requires but one gill of the Fluid, unless there is much dirt, as it cuts and removes the dirt, leaving it of the most brilliant whiteness, if warm water in its operations as pure water; washing will wear much longer than when rubbed over in the common method of washing.

As a powerful agent, to be used in all cases (ship), it is required, particularly for Hospitals, Hotels, cleaning windows and paint, &c., it is beyond a precedent, and universal in the washing world.

Colored Goods are rendered brighter and cleaner in this Fluid—all Woolen articles are less shrunk, and thereby rendered much softer in the way of washing.

The Fluid unless the Labels contain their signatures, is warranted by the Manufacturers to contain soda, lime, camphene, liburning fluid, or be of any kind, but to be purely an entire preparation of the most powerful character, never before discovered, being perfectly harmless, without possessing the caustic properties of the miserable articles which flood the market in many instances disgust the people to such a degree that they are unwilling to try a good article, really is to be found. The proprietors ask a fair trial of this article, and are willing to forfeit any amount for a single instance where it is used.

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, WASHINGTON.

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, whereby a Patent may be procured about six weeks earlier, he continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents; and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of verbally explaining their inventions and of consulting in respect to them, matters, in general, of paramount importance in order to obtain correct specifications and claims. The experience of sixteen years' practice, an extensive collection of rare works, decisions, &c., on mechanical subjects, the Patent Laws and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors, desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of this city, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of [illegible] in a form to secure for [illegible] favorable consideration at the [illegible].

CONSUMPTION CURED!

CANCHALAGUA;

AND

THE COMPLETE CURE OF

Coughs, Colds, Influenza, Asthma, Bronchitis, spitting of Blood, and all other Lung Complaints tending to CONSUMPTION.

NO OPIUM.

This syrup contains no Opium, Calomel, or any mineral whatever, but it composed entirely of those Roots, Herbs and vegetable substances which have a specific influence on the Lungs and their connected organs. It counteracts at once all irritation, and gently removes the phlegm and other morbid secretions from the Throat and Air Passages, thus relieving the Cough, by healing the inflammation and other causes which give rise to it. It also stimulates and imparts a healthy tone to the Lungs themselves, by expelling them more thoroughly to remove from the blood those impurities and diseased particles, which, if not calmed, do so much mischief in the system, and are the forerunners of Incurable CONSUMPTION. It also exerts a controlling action upon the skin, and, assists materially in expelling, through the Pores of the skin, much of that morbid matter which would otherwise go to clog up the Lungs, thus relieving them of a part of their work, and rendering the system more pure and healthy. When tubercles are forming, it checks their development and further progress; or if ulceration has taken place, it assists the Lungs in throwing off the corrupted matter, soothes the irritation, heals the ulcerated cavities, and restores them again to healthy action. This Medicine therefore is not a palliative merely, which only relieves for the time being, but is a thorough curative, as it strikes at the very root of the disease, and by removing it at once all its remote and attendant consequences. This is the distinguishing characteristic property possessed, in equal degree, by no other medicine of like nature now before the public.

CIRCULARS, &c.

As no ordinary kind advertisement can fully explain the nature and properties of this article, the Proprietors have published a new Circular, giving the history of the Medicine, the description, nature, &c. of its principal ingredients, the effect they are designed to have upon the Lungs, &c. Liver, and a copious reference to the parties who have been cured by it—giving their names and residence, open to the street and the number. Those who are troubled with a Cough, or whose Lungs are in the least affected, are earnestly desired to call upon the Agents named below and procure one of these Pamphlets. It can be had gratis, and will well repay a perusal. The "Hints on Health," and "About taking Cold," may be worth to yourself and family, [illegible] hundreds of Dollars.

In the shape of Doctor's Bills, saved, besides being the means of preserving many a valuable life.

WARRANTY.

Such is our confidence in the virtues that we are willing to warrant this Medicine in every case of recent Cold, (when used according to the Directions on page 7th of the pamphlet, inside the wrapper of each bottle,) and where the person is not satisfied that he is deriving benefit from it, by returning the bottle within twenty-four hours time,

THE MONEY

will be returned. See page 3d of the pamphlet inside the wrapper of each bottle.

Be sure to ask for Dr. A. Rogers's Syrup of LIVERWORT, TAR, and CANCHALAGUA, and let no CAUTION—None genuine, unless there is on the buff wrapper a note of hand, signed with ink, by A. B. SCOVILL & CO.

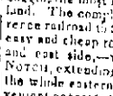
WHITE MOUNTAIN

STATION HOUSE,

Peabody River, Gorham, N. H.



THIS capacious and elegant establishment, just erected expressly to accommodate travellers to the WHITE MOUNTAINS, will be opened on the first day of July next.

This House is situated on the line of the Atlantic and St Lawrence Railroad, in the valley of the Androscoggin River at the junction of the Peabody River and the Moose River with the Androscoggin, and at the immediate base of the White Mountain Range, to the northeast side.

The confluence of these valleys at this point, affords the most beautiful and imposing views of the Mountains in various directions, and a more expeditious and easy access to the summit of Mt WASHINGTON and other peaks, than can can be obtained from any other quarter.

The House is but a few HUNDRED yards distant from Portland, and SIXTY MILES from Boston, by daily railroad trains over the Eastern, Boston and Maine, and Atlantic and St Lawrence roads.

An excellent public highway, suitable for Carriages of all descriptions, extends from this House seven miles up the Valley of the Peabody river to the Eastern base of Mount Washington. At this point a convenient public house is now erecting for the accommodation of persons ascending the mountains. The actual ascent on this side, can be accomplished with remarkable facility.

The valley of the Peabody River, in its entire length, passes along the whole eastern base of the range, affording very near and uninterrupted views of all the great peaks, and of the remarkable ravines and gorges between them. The valley of the Moose river affords equally near and most attractive views on the north side. Tourists and artists of the most competent taste have pronounced the scenery upon the northern and eastern sides of the Mountains, to be much more wild, rugged and truly Alpine, than any presented on the other sides. Pedestrians can make the ascent of Mount Washington from the Peabody river, and return, in from 6 to 8 hours.

To facilitate the ascent, a safe and convenient bridle path is to be opened to the summit of Mount Washington. From the central position of this House, at the confluence of great mountain valleys, the finest drives can be enjoyed in all directions, upon good carriage roads, affording new and stupendous views of the Mountains at every turn. The numerous mountain streams and lakes in the immediate vicinity abound in trout.

Six miles north of the House, upon the line of the Railroad, and accessible also by a carriage road are the celebrated BERLIN FALLS on the Androscoggin, the most remarkable cataract in New England. The completion of the Atlantic and St Lawrence railroad to this station, opens an entirely new easy and cheap route to the Mountains, to the north and east side,—while the remarkable PINKHAM NOTCH, extending southward from this house, along the whole eastern base of the Range, affords a convenient access to the valley of the Saco, and thence to the celebrated CRAWFORD NOTCH. Tourists from all parts of the country will find this the most expeditious and agreeable route for visiting the Mountains.

There is no Stage travel on the Route. Passengers are landed from the cars directly at the house. The Railroad trains from Boston and Portland every day, will afford constant communication to and from the mountains. The Proprietors of the House will make arrangements with the Telegraph Companies and with Congdon's Express, by which despatches and other communications can be transmitted to and from all parts of the country for the convenience of visiters.

The House is large and commodious, constructed with great regard to architectural elegance, and with all the conveniencies of a first class Hotel—newly and thoroughly furnished throughout.

Families can be accommodated with suites of rooms.

The Proprietors having leased the House for a term of years, will do all in their power to promote the comfort, and pleasure of their guests, and can promise a well supplied table, and clean and well ventilated rooms at moderate charges. In connection with the House is a large LIVERY STABLE, where good Horses and Carriages,—and Saddle Horses will be furnished at all times.

Also good Bathing rooms for the convenience of visitors.

MRS. S. A. HAYES, Proprietors.

Cape Cottage Re-opened.

ON the first day of May, the long celebrated MANSION VILLA, which with the Stables, Sheds, Bowling Alleys, &c., has been entirely rebuilt in a new style of architecture, opened for summer boarders and transient company, on all days (Sabbaths excepted), when no permanent visitors will be received on any account,—the intention of the subscriber being to establish for the House a high character, as to enable the hearty co operation of all who may need repose, refreshment, sea bathing, pleasant drives and walks on the outer shore of Cape Elizabeth, all open to the sea, with vessels passing and repassing all hours, and nearly under the windows; the White Hills of New Hampshire in full view for one side, with the shipping of Portland on the other, CAPE COTTAGE has long been regarded as one of the most beautiful and picturesque watering places in the world. By the kind notice of Mr. George Combe, in a book of travels in the United States, who spent a summer at this place, it has acquired a high reputation abroad.

The location is all that can be required for resort to the invalid or persons for pleasure; and the subscriber will not fail in his endeavors to make it in all respects deserving of the public

P. S. Being only three miles from Portland, conveyance can be had at any time.

Not Very Far.

Surely, you heaven, where angels see God's face
Is not so distant as we deem;
From this low earth! 'Tis but a little space,
The narrow crossing of a slender stream;
'Tis but a veil, which winds might blow aside;
Yes, these are all that us of earth divide
From the bright dwelling of the glorified—
The land of which I dream.

These peaks are nearer heaven than earth below,
These hills are higher than they seem;
'Tis not the clouds they rest on, nor the soft brow
Of the o'er bending azure as we deem:
And like some old and wildly runed, stale,
They lift us to the land where all is fair—
The land of which I dream.

These orient waves, in their unmeasured sweep,
Are brighter than they seem,
True image here of the celestial deep—
Feel from the fullness of the unfailing stream!
Heaven's glassy sea of everlasting rest,
With not a breath to stir its silent crest,
The sea that leaves the land where'er it are blest;
The land of which I dream.

And these keen stars, the bridal gems of night,
Are purer, lovelier than they seem;
Filled from the inner fountain of deep light,
They pour down heaven's own beam;
Clear speaking from their throne of glorious blue
Of accents ever ancient, ever new,
In the glad home above, beyond our view—
The land of which I dream.

constructors of the United States, and how could it be otherwise when the finest ships that float, bring daily evidence across the ocean of their skill, yet there are but three or four small models, or rather sketches of hulls in that department. There are thousands, from appearance, of English and French designing Of life boats there cannot be, fewer than a hundred,—but one of which compares with Capt Towlesbury s the efficient harbor master s invention, of Boston It is lamentable that one of his boats is not in London, for the consideration of the Lords of the Admiralty, because it is in every respect superior to any life boat in England J V C S

Pennsylvania.

The Whig State Convention of Pennsylvania will assemble at Harrisburg, on the 21th inst, to nominate candidates for State officers. What gives the meeting of this Convention peculiar interest is the fact that in all probability the delegates will express their individual preferences for a candidate for the Presidency But two candidates are thought of in connection with that office by the whigs of Pennsylvania—Mr Webster and General Scott. Both have many warm friends in the Keystone State

☞ Several young Misses of our city came out yesterday in the Bloomer style of dress and appeared as neat as pinks! Some of them went through the experiment of a first appearance with much grace, while others were rather sensitive and nervously shy. Some of the school boys became quite excited in their long walking to gratify their curiosity and made a sort of Beelzebub demonstration towards the innocent creatures, who, the boys themselves could not but admit, appeared very pretty We half suspect that some of those who still persist in the long, draggle dresses do it, what they could slyly to have the improved order annoyed by a little of the turn upnose of a portion of the boys, but the boys felt ashamed of it—They must have felt so for the new style appeared to decided advantage beside the draggle street sweeping dresses

Mrs. Stanton wife of Senator Stanton of New York formerly a Massachusetts woman reasons in the following fine style regarding the new costume Let the silk worm stay in its cocoon until its own wants compel it to throw it aside. Let every woman stay in her long petticoats until she feels the necessity of a change, then no opposition or trivial objections will deter her, then she will not doubt or hesitate as to what she shall do, she will not heed the remarks of rude men and boys and unmanly women. Though I do not wish to converse any woman against her will of the present cumbersomeness of this change, yet I would answer some of the objections I have heard, some say the Turkish costume is not graceful—Grant it. For parlor dolls, who loll on crimson velvet couches, and study attitudes before tall mirrors—for those who have no part to perform in the great drama of life for whose heads hearts and hands there is no work to do, the drapery is all well let them hang it on thick and heavy as they please, though to the highest artistic taste, the human form is most beautiful most graceful wholly undraped and unadorned. Are not the Grecian themselves thus represented? I have seen a gallery of beautiful paintings and statuary, in the old world but nowhere is the ideal form to be found in a huge wheelbone boddice and bedraggled skirt. If the graceful is what you aim at study the old painters and sculptors and not Godey s Book of Fashion But for us common place every day working characters who wash, and iron, and brow carry water and fat buckets up stairs and down, bring victuals supplies and pails of milk from the cellar, run our own errands, through mud of snow shovel paths and work in the garden why the drapers is quite too much—one might as well work with a ball and chain. Is being born a woman so criminal an offence that we must be doomed to this everlasting bondage? But say more, it is not the fashion! Neither is it the fashion to be honest and virtue is to lead simple, pure and holy lives The true and earnest soul is always odd Again some women of decided character are proposing to wear the short dress Well, have they no also worn a long one? But men and boys laugh at us! That is a strong reason in its favor) It is good to be laughed at The moment one can encounter the latter It strengthens and develops the character to stand alone What will the people say? has been a powerful weapon in crushing many generous impulses high resolves, and noble deeds Women are said to have excessive love of approbation therefore must we cultivate deference to the opinions of others, but be ever alive to their sufferings—Let the weal and woe of humanity be every thing to us but their praise and blame of no account!

☞ John D Prescott, Esq, the late popular and gentlemanly landlord of the Exeter House, has opened a new hotel at Exeter Corner, near the old stand, where he will be ready at all times to attend to the wants of the travelling public Mr Prescott has already acquired the reputation of an accomplished landlord which we can at sight not unobserved, His new house will we have no doubt, be a popular one A stage from this city passes Mr Prescott's every day (Sundays excepted) of the Dexter or Lake line This is a very pleasant route to Moosehead, and Mr Flint has a fine coach and four, running three times a week

☞ We understand, says the Boston Advertiser, that Mr. B A Gould, whose name for one so young has been much connected with the astronomical and other scientific research has been tendered the appointment of Professor of Astronomy at the University of Gottingen, in place of Dr. Goldschmidt, recently deceased. We do not learn that Mr Gould has decided to accept this invitation It is a flattering testimonial from the institution where he obtained a part of his scientific education, which is confirmed by his reputation at home

Celebration at Brewer.

We learn that the Temperance Celebration at the Ferry Village Brewer, opposite the city on the Fourth of July, will be quite a brilliant affair The address will be delivered by Charles Crosby, Esq, of this city, Rev Mr Caldwell having declined on account of other engagements.

The Band in this city has been secured for the celebration the common schools of the village will form part of the procession and the Brewer Artillery will do escort duty

We trust the Artillery company will visit our city during the day and waken up the patriotism of our people

Appointment.

The Newburyport Herald says that Edwin Lawrence, Esq of that city, has been appointed Register of probate, in place of Nathaniel Lord, Esq, removed. Mr Lord has held the office since 1809, and the office under his management has been conducted to the universal satisfaction of the public and all its departments has been the model of neatness and correctness which the new incumbent will be fortunate indeed, if he is equally successful in accomplishing

☞ The Merchants Steam Navigation Co was organized yesterday under their charter, and made choice of the following officers,

J B Foster, President.
J T A Hayward, Treasurer
Gilman Crosy, Clerk
Directors—J B Foster, Nath n Pendleton, Jeremiah Curtis, Geo W Ladd, of Bangor; R. Loper Philadelphia; C H Miller, Belfast Daniel Robinson, Buckport.

The Hester Promenade—Fire Works on the Fourth.

The City Council, at its session yesterday, passed an order directing the Street Engineers to lay out the Chester lot for public uses and to appraise the damages and assess the adjacent estates for their proportion of the expense The Council also appropriated $300 for a display of Fire Works on the evening of the fourth of July

This is a waking up to the popular sentiment which will be well sustained by the mass of our citizens If Bangor would make progress she must not sleep nor be seen torpid

☞ A great variety of Geneva watches are exhibited at the World s Fair There are watches for the head and hand, a watch which runs with one winding three hundred and seventy four days one smaller than a fourpenny piece, to hang on a serpent bracelet one still smaller, in the top of a gold pencil case, tells the hour, day of week and month,

☞ The citizens of Lynchburg Va. have subscribed ten thousand dollars for the education of the four children of Mr Terry who was shot in the street in a combat growing out of the publication in the Lynchburg Virginian of which he was editor, of an article displeasing to his antagonist. Both parties died—assassination assassinated

☞ Hon Stephen Fairbanks Treasurer of the Trustees of Dominis fund for Education in Liberia, acknowledges the receipt of one thousand dollars from one of the most respected retired merchants of Boston This is the third donation of one thousand dollars within the past two months

☞ The offence of child stripping is now practised to a great extent in Liverpool One day no less than five children were robbed of their boots and other articles, and every day many cases are reported to the police, who are on the alert, the children being too young in many instances to describe the parties who principally appear to be beggars

☞ The papers to day confirm the sad tidings of the great fire at San Francisco and state that every house save one established shanties, except that of the Alta California, was destroyed

A disastrous fire had occurred at Stockton, causing a loss of over one million of dollars

FRANCE.

Louis Napoleon has visited the Normandy departments for the purpose of opening the Paris and Lyons Railway A grand banquet was given him at Dijon where he made a speech favoring great liberality in relation to Parisian Journals which will be looked upon as a declaration of war against the assembly

The President returned to Paris on the 3d of June where he was received with some eclat, but no outbreak ensued

☞ The gold excitement is run high in the city yesterday, and quite a large number of our citizens left home suddenly *on a fishing excursion to the Labrad* The large proprietors are in ecstacies Specimens of the gold from the northern diggins have been exhibited in this city, and some of the California miners have a present design to try their luck

☞ The jury, in the case of Lewis Hayden, charged with the offence of aiding in the rescue of the fugitive Shadrach, in Boston have been unable to agree upon a verdict and have been discharged

☞ The American Institute for Homœopathy held its annual session last week in New Haven Fourteen physicians offered themselves for membership

☞ Sir E Bulwer Lytton has consented to run as the Protectionist candidate for Parliament for Hertfordshire and will be returned without opposition. This is stated to be the fruit of his recent political pamphlet.

☞ The Cholera is raging fatally at Princeton, Ky, and the citizens are deserting the town Five deaths occurred in one day.

☞ Mr Kellogg will deliver his second Temperance lecture at the City Hall on this evening We advise all persons to attend the lecture

☞ The government of Spain is now trembling in fear of an insurrection in Madrid, and is making the strongest military preparations to prevent it.

FROM FORT LEAVENWORTH A letter dated Fort Leavenworth, May 20 says

Col Sumner the commander of the expedition, consisting of 300 horse and 300 infantry has just issued his orders that the infantry shall march at 2 o clock and the cavalry at 7 o'clock tomorrow morning, and he expects to reach Las Vegas (700 miles) in seven weeks from this date, resting every Sunday

Las Vegas is seventy five miles this side of Santa Fe, so that the expedition will probably reach its destination about the eighteenth of July

The Government intends to make a strong effort to reduce the army expenditures and to accomplish this purpose will send out supplies for farming machinery for irrigation and a large number of horses, which cows are kept to improve and increase the stock in New Mexico

I am very sorry to inform you that the cholera has broken out in our camp, and that during the past week we have had several fatal cases I am in hopes however, that those are merely sporadic cases and that they will not become epidemic

☞ The Salem Gazette copies the account of the donation to the family of Mr Calhoun and appends to it the following

"Some years since Mr Calhoun finding he sought to raise some money, on the mortgage of his plantation, to meet some pressing emergency, wrote to the Hon Abbot Lawrence, to obtain his assistance in effecting the negotiation The required sum was at once raised principally in Boston and offered to Mr Calhoun as a gift, without a loan but he at once and positively refused to receive a dollar of it the pressure that the donation to his family referred to in the preceding extract from the Boston Review, is from a different class of contributors"

THE THOMPSON FESTIVAL About one thousand persons attended the Farewell Festival to George Thompson Esq, at Assembly Hall last evening Edmund Quincy presided. William Lloyd Garrison made the Farewell speech to which Mr Thompson replied saying on abroad occasion he had not time to take back of what he had said in relation to this country and its inhabitants. He thought as a people they were rotten to the core He rather intimated however that he should hereafter return and take up his home with them Mr Thompson was to sail for home in a few days, in a packet ship just launched at Portsmouth but he regretted in this will probably take some other route —Boston Traveller 17th

Education.

We may assert that in a hundred men, there are more than ninety who are what they are, good or bad useful or pernicious to society, from the instruction they have received It is an observation that depends the great difference observable among them The least mistaken perceptible impression received in our infancy have consequences very important, and of long duration It is with these first impressions, as with a river, whose waters we can easily turn by different canals in quite opposite courses so that, from a little sensible direction the stream receives at its source it takes different directions and at last arrives at places far distant from each other; and with the same facility we may turn the minds of children to what direction we please.

RICHES WITHOUT CONTENT A man diseased in body can have little joy of his wealth be it ever so much A golden crown cannot cure the headache or a velvet supper give ease to the gout, nor a purple robe free away a burning fever A sick man is alike sick, wheresoever you lay him, on a bed of gold or on a bed of straw, with a silk quilt, or a sorry rug on him So no more can riches, gold and silver, land and livings, had a man much more than ever any man had, minister unto him much joy; yea or any true sound joy at all, where the man is distract and discontent. Without contentment there is no joy of aught, there is no profit, no pleasure at anything

CAPTURE OF A SEA COW Messrs Clark and Burnham lately succeeded in capturing a sea-cow near Jupiter Inlet, Florida. The animal was caught in a net, was a male, and three feet three inches in length They succeeded in taking it alive and shipped it to Charleston for exhibition It was very wild when first captured, but soon became quite tame, and ate freely of grass, &c Its tail is in the shape of a fan, and is two feet five inches broad. It has no hind feet, its fore feet are similar to those of a turtle, and it has nails like those of the human hand but no claws. Its mouth and nose resemble those of a cow; it has teeth on the lower jaw, but not one on the upper. A female was also taken, but it was so large, and, becoming entangled in the net, made such desperate exertions to escape, that the captors were compelled to shoot it. They preserved the skin, however, which was fifteen feet long—Living Age.

The Drift Boat.

The Rev Mr Gordon, of Lowell, Mass, now on a visit to England, in a letter to the Lowell Journal, describes the following incident of the discovery of a drift boat on the Atlantic and appends the beautiful comparison

"Casting our eyes over the now placid deep, there appeared in the distance an object that aroused our curiosity, as almost anything will that breaks the monotony of a long voyage—It seemed, at first sight, of the size of a man s hat and which some supposed it to be, but, gradually nearing it, we discovered it to be a small boat gracefully gliding along upon the slightly undulating waves There were painful apprehensions mingling with our curiosity, as we gazed upon the lone craft, and our imaginings readily associated it with shipwrecks, loss of life &c especially, as what we had already seen indicated some serious disaster) As it was an excellent boat, our Captain determined on making an effort to secure it. For this purpose our ship bore towards it, and when near enough was hove to so that our progress might be checked as soon as possible

The second mate a noble daring fellow proposed a plan which was adopted with promises of success He had a rope tied round his body, and when the ship bore up so near as to afford a chance of reaching it, he boldly plunged into the sea, and swam toward it but though he used every effort, he failed just as he was on the point of reaching it, and was hauled in considerably exhausted by the attempt. But he was not one easily disposed to give it up so nothing daunted he prepared himself for another spring and effort which the captain as readily granted while the excitement on board increased with the difficulty of capture Sanguine of success, after some time spent in bringing the vessel to bear toward it again he leaped once more courageously into the deep, and to the joy of all finally succeeded in laying hold of the sides of the boat. Now we thought the prize secure and as the pointer hung over the bow of the boat with apparently something or other attached to it we were in hopes that there was, or might be in that circumstance a clue to discoveries we were anxious to make, as well as secure the boat But alas! for all our hopes Just as we were in the acme of expectation one ship doom'd to all to disappointment. Fearing that he might be unable to hold on till he and it were hauled alongside the mate made a desperate effort to get into the boat, but in the struggle he lost his hold and all attempts to seize it again were fruitless, and we were obliged to pull him in perfectly exhausted

To the regret of all the attempt was abandoned and we went on our way, leaving the mysterious stranger in its Atlantic solitude It is not easy to conceive the interest which such an incident created at sea, where there is so little variety to break the monotony of a tedious voyage and rouse the dormant faculties into play; but our thoughts dwelt long upon that little atom on the boundless deep and the mournful scenes that might be connected with its history one it was left alone to tell of some disaster that had no other chronicler Like some hapless adventurer worn out and wasted by disease and fatigue as left by his companions in some desert spot to breathe out his spirit, while they in advance with difficulty on their journey, and perad venture to meet a similar fate

Thus it does often happen in the voyage of human life, that we find some stern youth, who has been nursed in the lap of luxury and furnished with a superabundance of riches by the storm and tempest of unruly passions cut off from his kindred and home—launched out upon the sea of pleasure, to dash free and heedless into scenes of dissipation and vice which impair or ruin both health and fortune and, peradventure cast him a moral wreck upon a shoreless eternity. And, though every effort is put forth that true affection can employ to restore and restore him to the paths of sobriety and virtue he clings yet closer and closer to what ruins his soul, till he is as much to be dreaded as he is to escape from a fever stricken

We would therefore from this incident of the abandoned little beauty of the deep, warn the young voyager to beware of those deceptive temptests which sweep across to seek of life that he lose not his hold of those virtuous principles which guide him safely to the haven of rest, lest God provoked by his vicious indulgences, give him up to the waves of his own choosing, and say, to all attempts of the most affectionate friendship to reclaim him from the error of his ways, he said in anger case, He is joined to his idols—let him alone Instead of wandering from object to object in pursuit of pleasure, and mourning at last that he has been the dupe of some iguis fatuis, let him give heed to—

"That wondrous lamp the light candle of the Lord
Is of all earthly treasures the only star
By which I am enabled to examine my gate
And I'll be saved if I follow the dictates of his
Heavenly will"

Pure Block Tin Pipes.

THE subscriber would inform the public that he has procured from

MESSRS. T. O. LEROY & CO.

Samples of this celebrated article, and he intends to keep on hand a full supply, at New York prices. These Pipes are warranted pure Block Tin; cost but little more than Lead, (if equal expense,) are entirely free from corrosion, and all the

NOXIOUS, POISONOUS QUALITIES

that most of the waters of this City derive from Lead, when used to conduct it. These Pipes are recommended by the first Chemists and Engineers of our country, as superior to anything heretofore offered for the same purposes.

RARE CHANCE.

THE Homestead formerly owned by John Shaw, Esq., in Exeter, consisting of Dwelling House, Barn, Store and Potash, and about two acres of Land, is now offered for sale on favorable terms. Possession of the Store and Potash can be had immediately, and of the Dwelling House in September next.

To a person with small capital, disposed to engage in trade and the manufacture of Potash, (for which unlimited facilities are here afforded,) an opportunity is now offered which can hardly be equalled in this section of the State.

A stock of Goods now in the Store will be sold on terms that cannot fail to be satisfactory.

Apply to the Subscriber, in Exeter, in which the above property is situate, it but twenty miles from Bangor, and for beauty of locality is unsurpassed. Mail communication with Bangor is had by the two lines of stages running daily through the Village.

NEW ARRIVALS

AT

RICH DRESS GOODS!

No. 40 Main Street.

WE now offer to our customers and the public, our SECOND GREAT STOCK of the season, received direct from New York, all of which will be sold at such prices as will satisfy purchasers OUR ESTABLISHMENT ranks among the *very first* in the STATE for Good Bargains and *honorable dealing.*

Large quantities of our Goods are received direct from IMPORTERS and AGENTS, enabling us to save our customers a handsome profit they would otherwise have to pay on many kinds of Goods; and to offer at all times every possible inducement for the *Public* to make our Store their GREAT RESORT for all their Dry Goods purchases.

In addition to our stock of *Rich Dress Goods*, we offer FAMILIES preparing their HOUSE-KEEPING ARTICLES, a much greater variety of Table Linens, Bedding, &c., than is usually found in any one establishment.

Our stock of *SHAWLS, VISITES and BONNETS* is very large.

Our Carpet Rooms

never presented greater attractions to the city of quality and novelty of style, than at the present season.

In addition to our large and attractive Retail department, we would call the attention of MERCHANTS OUT OF TOWN to our

WHOLESALE ROOMS.

They contain all the *Staple* and desirable styles of DOMESTIC GOODS of the season.

Without particularizing the names and prices, we will pledge ourselves to offer to the *Trade* our Goods, at *the lowest Boston prices*, thereby saving the necessity of time and expense incurred in visiting other markets.

ORDERS from out of town receive our prompt and especial attention.

MORSE'S COMPOUND SYRUP OF Yellow Dock Root

OCCUPIES the front rank among the proprietory or Medicines of this country for completely curing Canker, Salt Rheum, Erysipelas, and all other diseases arising from an

Impure state of the Blood.

Also, Liver Complaints, Catarrh, Dyspepsia, Headache, Dizziness, Coughs, Sickness and Faintness at the Stomach, Bronchitis, Hoarseness, Dryness, and a tickling sensation about the throat; and is used with unprecedented success in all cases of

Female Weakness and General Debility.

Strengthening the weakened body, giving tone to the various organs and invigorating the entire system.

If the testimony of thousands of living witnesses from all parts of the country can be relied upon, it is singularly efficacious in

CURING ALL HUMORS,

and restoring debilitated and broken down constitutions. It is *purely vegetable* in its composition, and is accurately combined in its proportions, that the chemical, botanical and medicinal properties of each ingredient harmoniously unite to

PURIFY THE BLOOD.

It has removed many chronic diseases which have baffled the skill of the best Physicians, and also cured Canker, Salt Rheum, Erysipelas and Scrofula, which Sarsaparilla syrups entirely failed to make the least impression upon.

It has been tested in many cases of

CANCEROUS HUMORS.

The most obstinate Cancers have been cured by this medicine. We say that it is a valuable medicine in all

BILLIOUS COMPLAINTS.

It removes all obstructions in the circulation, rendering the blood pure, active and healthy. It removes Palpitation of the Heart, and relieves in all cases of Asthma, and may be used in all climates and in all seasons of the year.

This Syrup is prepared only by C. MORSE & CO., 102 Fountain street, Providence, R. I., and sold by thousands in the United States, Canadas, etc.

Gastric Juice,

PREPARED from RENNET or the fourth STOMACH OF THE OX a true direct solvent of BARON LIEBIG the great Physiological Chemist by J S HOUGHTON M D Philadelphia Pa

This is a Great Natural Remedy for *Indigestion* or *Dyspepsia* curing it on Nature's own Method by Nature's own Agent the Gastric Juice PEPSIN is the chief element or Great Digesting Principle of the Gastric Juice—the *Self set of the Food* the *Purifying Preservative* and *Stimulating* Agent of the Stomach and Intestines It is extracted from the Digestive Stomach of the Ox thus forming an ARTIFICIAL DIGESTIVE FLUID precisely like the natural Gastric Juice in its Chemical powers and in furnishing a *complete* and *perfect solvent* for all the different kinds of food on the pains and evils of Indigestion and Dyspepsia are removed just as they would be by a healthy Stomach It is doing wonders for Dyspepsia during cases of Debility Emaciation Nervous Decline and Dyspeptic Consumption supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, the highest degree of *success* and *remarkable*

BARON LIEBIG in his celebrated work on Animal Chemistry says "An Artificial Digestive Fluid analogous to the Gastric Juice may be prepared from the mucous membrane of the stomach of the Ox in which various articles of food as meat and eggs will be *softened digested and digested just in the manner as they would in the human stomach*

Half a teaspoonful of pure Pepsin infused in water will digest or dissolve *Two Pounds of Beef in about Two hours* out of the stomach

Dr HOUGHTON'S PEPSIN is sold by nearly all the druggists in the principal cities throughout the United States It is prepared in Powder and in Liquid form and in Prescription form as follows

PRIVATE CIRCULARS for the use of Physicians may be obtained of Dr Houghton or his Agents describing the whole process of preparation and giving the evidence upon which the claims of this new remedy are based As it is not a *secret nostrum* no objection can be raised against it and is used by Physicians on respectable standing and recommended for practice

Price Fluid form ONE DOLLAR per bottle

PEPSIN IN POWDER,

Sent by Mail *free of postage*

For convenience of sending to all parts of the country the DIGESTIVE MATTER OF THE PEPSIN is put up in the form of Powder with directions to be dissolved in water by the patient Dissolved by teaspoonfuls just the same matter as the bottled and will be sent by mail *free of postage* for ONE DOLLAR sent (post paid) to Dr J S HOUGHTON Philadelphia Pa

☞ OBSERVE THIS —Every bottle of the genuine PEPSIN bears the written signature of J S HOUGHTON M D sole proprietor Philadelphia Pa

ELEGANT AND INVALUABLE Articles for the Toilet

Bogle's Hyperion Fluid

For Restoring Preserving and Embellishing the HAIR

The following testimonials from Dr Winslow Lewis one of the most eminent Physicians of Boston will show how estimable is the article to the ladies and how justly it merits the high encomiums bestowed upon it

Boston Feb 15 1851

Mr Wm Bogle The preparation invented by you for the hair has been extensively used in my family and I can give it the decided preference over all other compositions of the kind I have ever tried It will heal and promote the growth of the hair and also cleanse the skin of all impurities which tend to produce dandruff the result of many well known and unpleasant diseases

WINSLOW LEWIS

It is an indispensable article for the Ladies as it keeps the hair in place and cleans the skin preventing dandruff and other impurities which are found in all good articles of the kind

BOGLE'S AMOLE,

A COMPOUND FOR SHAVING.

This delightful article is partially diluted and ready for use and is invented for shaving for men of delicate skin and tender beards Composed of Camphor and Cocoa nut oil by the natural process of Saponification the skin is rendered soft pliable and beautiful by the use of it Its vegetable and tonic agent properties leave the pores open and exert a cooling effect on the skin—it and never dries and will heal any blotches or skin eruptions that may exist on the face Its incomparable excellence is done up in elegant style can be carried in the pocket for the rough and ready traveller, or the toilet of the most fastidious gentleman

Bogle's Hebeatona,

FOR REMOVING AND BEAUTIFYING THE COMPLEXION

Radically cures Pimples and other eruptions of the skin and renders light fair delicate and blooming It is equally effacious in protecting the skin from the sun and from cold and all extremes of winters Bathing compliments and delicious article to be found in the toilet

All the above articles have stood the test of the strictest investigation and are warranted superior to any thing yet introduced but if not found to prove as they set the money in all cases will be refunded by my Agents.

THE PILES!

A CURE FOR THE SECURED

DR UPHAM'S INTERNAL REMEDY FOR THE CURE OF PILES

THIS VEGETABLE PREPARATION is recommended by Dr A U Upham a distinguished physician of New York as the only really successful remedy for that dangerous and distressing complaint the Piles, ever offered to the American public

The Pilentary contains no *Mineral Medicine* or *all ores Colocynth Gamboge* or other powerful and irritating purgative No fear of taking cold while under its influence, no change in diet necessary If taken according to directions *a cure for life is guaranteed.*

Another certificate added to the hundreds that have already been received of the efficacy of Dr Upham's Internal Remedy

New York August 25, 1845

Messrs Wyatt & Kitchen—Gents For several years past I have been troubled with piles a very costive state of the bowels indigestion and weakness of the system Being complaint not being so severe as to disable me from business and had used a host of physicians and patent medicines, that on this Specific I never used any medicine supposed to be physic as for relief of the Piles but by the persevering I also used several boxes of the pills made, without any benefit Determined after this to try other means I read an advertisement of a cure guaranteed by the use of Dr Upham's Electuary I purchased three boxes at your store, and from the use of which I found myself entirely cured of the Piles and my health much improved I remain sirs your much indebted friend

The writer of the above from motives of delicacy, desires not having his name used, but authorizes us to refer him or show the original certificate to those who may doubt its authenticity

Another fact in relation to the efficacy of Dr Upham's Electuary

PHILADELPHIA, Nov 9 1846

Dr Upham—Dear Sir About five years ago I was afflicted with what was called Chronic Dysentery I have suffered with it ever since, and physicians have told me that my liver was affected and that my bowels were ulcerated for blood and pus attended with a peculiar putrid smell were the frequent discharges A short time since I read a visit to Massachusetts in hopes of benefit from a change of air but suffered more severely than ever before While there a physician offered to cure me for $10, in three months—Happily in the midst of intense pain, accidentally received by the Steamer I saw in a wrapper of your Electuary a perfect description of my complaint together with many certificates of cures This gave me great confidence in the medicine and I purchased a box and soon knew of which has hopefully cured me, and am prepared to say every thing in its favor, at render any service I can to humanity by subscribing to its worthy
